PROFESSIONAL SUMMARY

Data Analyst with 3+ years of experience in automation, MIS, and analytics. Proven in building scalable data pipelines and delivering actionable insights across cross-functional teams. Proficient in Python, SQL, Power BI, and advanced Excel, with expertise in machine learning and NLP. Currently pursuing a Master’s in AI ML.

PROFESSIONAL EXPERIENCE

Executive Data Analyst <i>Meteorology Data Pvt. Ltd. (BARC Subsidiary)</i>	Sep 2024 - Present Mumbai, India
- Engineered 15+ automation workflows using Python, reducing manual reporting time by 75% and saving 20+ hours weekly - Built end-to-end data pipelines for ETL processes handling 500K+ records daily, improving data accuracy by 95% - Developed interactive Power BI dashboards tracking 25+ KPIs, enabling data-driven decisions for 5+ departments - Led cross-functional collaboration with 8+ teams to align automation strategies, improving process efficiency by 40%	
Executive - MIS and Analytics <i>Adecco</i>	Jun 2023 – Sep 2024 Mumbai, India
- Designed and implemented SOPs for MIS workflows across 6 departments, standardizing data handling and reporting protocols - Created automated email reporting systems delivering 50+ daily reports to stakeholders, ensuring 99% on-time delivery - Established centralized data repository consolidating 10+ data sources, reducing data retrieval time by 60% - Analyzed gaps in existing MIS practices and optimized reporting accuracy, reducing data discrepancies by 85%	

KEY PROJECTS

Machine Learning Loan Prediction Model: Developed ML classification model achieving 88% accuracy using ensemble techniques (Random Forest, XGBoost).
Google Play Store EDA & Dashboard: Conducted comprehensive exploratory data analysis on 10K+ apps, built interactive Tableau dashboard visualizing app performance metrics, user sentiment, and market trends for strategic insights.
Automated Data Summarization Pipeline (Industrial Project): Leveraged Python, Selenium and Salesforce APIs to build complex analysis pipeline processing 500+ customer reviews daily, extracting actionable insights with 92% data accuracy.

TECHNICAL SKILLS

Languages: Python (Pandas, NumPy, Scikit-learn,), SQL
Data Analysis & Visualization: Tableau,Power BI, Advanced Excel (Power Query, Pivot Tables)
Machine Learning & AI: Deep Learning, NLP, Statistical Analysis, Web Scraping (BeautifulSoup, Selenium)
Tools & Platforms: GitHub, Jupyter, VS Code, ChatGPT/Gemini/Copilot/Claude for rapid prototyping
Core Competencies: Pipeline Development, Process Automation, Information Management, Cross-functional Collaboration

EDUCATION

Masters in Computer Science (AI & Machine Learning) <i>Almabetter (Woolf University)</i>	2024 – Present Mumbai, India
Certification in Data Science and Artificial Intelligence <i>Develearn Institute</i>	2023 – 2024 Mumbai, India
Bachelor of Science in Bioanalytical Sciences <i>Guru Nanak Khalsa College</i>	2020 – 2023 Mumbai, India

ADDITIONAL INFORMATION

Certifications: Data Analytics Workshop, Effective Communication Workshop, Research Performance Optimization Seminar
Interests: Theater & Creative Arts, Music Composition, Video Editing & VFX
